

Factsheet

Product Portfolio OEKO-TEX®

OEKO-TEX® enables consumers and companies to protect our planet by making responsible decisions.

STANDARD 100 by OEKO-TEX® is a third-party certification system for textile products at all stages of production which verifies the item has been tested for harmful substances. Certificates are issued if all components meet the annually updated requirements.

MADE IN GREEN by OEKO-TEX® is a label for textile products made with materials tested for harmful substances, made in environmentally friendly facilities and made in safe and socially responsible workplaces. The product ID and/or the QR code on the label allows consumers to transparently trace labelled products.

STeP by OEKO-TEX® is an independent certification for environmentally friendly and socially responsible textile production facilities. Certificate owners can transparently document and communicate their sustainable commitment by reporting on key performance indicators.

ECO PASSPORT by OEKO-TEX® is an independent certification for textile chemicals, colorants and auxiliaries. It consists of a two-step verification procedure that analyzes whether or not substances meet specific criteria for a sustainable textile production.

DETOX TO ZERO by OEKO-TEX® enables manufacturers along the textile chain based on an annual status report to assess whether their chemical management and the quality of their wastewater and sludge are in line with the goals of the Detox campaign.

LEATHER STANDARD by OEKO-TEX® is a third-party certification system for leather articles, at all levels of production, tested for harmful substances. Certificates are issued if all components of the item meet the annually updated requirements.

MySTeP by OEKO-TEX® is a database that allows you to monitor and assess the sustainability scores of suppliers along the textile value chain, while transparently managing existing OEKO-TEX® certificates.
